### Testing Procedures:

No quizzes are required.

## Assessment, Evaluation and Testing Procedures

Written work posted in the Drop Box and the Discussion Boards will be scored in accordance with the rubric for each posted with the assignments. All work will be checked for plagiarism and AI generation through Turnitin.

Note: In the event of a borderline final grade, additional consideration will be given to three participation factors:

- (1) Level of activity within the course content in elearn, which should be consistent and timely.
- (2) Effort expended in completing or attempting all assignments.
- (3) Progress over the course, evidenced by upward trending scores on assignments and any other factor that the Instructor finds relevant.

**If you have an unsatisfactory grade (below 70% or a D or F letter grade) on any exam or major component of your final grade, please make an appointment with your instructor to develop a strategy which will help you to succeed in this class.**

A Course Schedule of assignments will be posted in elearn.

All work submitted into the Drop Box should be 12 font and double spaced.

Students are expected to read the feedback for each submission in a timely manner.

Student work may be used anonymously for instructional purposes unless Instructor is notified in writing within the first 10 course days that a student does not agree to this use.

Late work may, in the Instructor's discretion, be accepted until the last class date. Work that is submitted more than a week past the due date is subject to a penalty of up to 50% of the assignment's value.

Extra credit, always discretionary, will not be given if any assignments have not been attempted.

Polite and respectful communication is required online and in person.

Emails will usually receive a reply within 24 hours of receipt. I often reply early in the morning, and rarely late at night.

Dual Enrollment students must comply with the responsibilities set out in the Getting Started Module.

AI (Artificial Intelligence) and Academic Integrity Policy

“Academic writing is a challenge. It demands that you build on work done by others but create something original from it. By acknowledging where you have used the ideas, work, or words of others, you **maintain your academic integrity and uphold the standards of the Institute and of the discipline in which you work.**” <https://integrity.mit.edu/handbook/writing-original-work> (Accessed 8-9-2023)

- The learning outcomes for this course are supported by assignments that are aligned with those objectives and designed for student interaction with the material to generate original content.
- Original work is important because the effort supports the learning process, allowing students to engage in critical thinking, analysis, and synthesis of concepts. These skills must be developed through use. College is the appropriate venue to develop these skills, which are valued in the workplace and professional endeavors.
- AI tools such as ChatGPT and others may be used as a tool by students in specific assignments. The instructions will clearly state the parameters of that use.
- Any submission that is created with assistance from AI must credit the source and include the prompt(s) engineered by the student along with the material generated in response.
- Student submissions will be evaluated through AI detection software, including Turnitin, which generates a percentage probability of AI generation.

- Consequences of violation will vary depending on circumstances, and may include an opportunity to revise the work, lower grade reflecting lack of original work, and a grade of 0 for the submission.

The syllabus does not constitute a contract between the student and the instructor or the College. The information contained here is subject to change at any time. The instructor reserves the right to modify this syllabus at any time with written notification to the students. Though changes are possible, it is expected that the course will be conducted as described in this syllabus for the semester/year specified in the Course Information section of the syllabus. This syllabus is only valid for the semester/year specified and course requirements are not guaranteed for future semesters.

## COURSE GROUND RULES

- Students must attend the first day of on-ground class or contact the instructor prior to the first class. Failure to do this may result in being dropped from the class. Excessive absences may substantially lower the course grade.
- Regular class attendance is a student's obligation for any course regardless of format. (See the Walters State Catalog/Student Handbook). If a student misses class, it is his or her responsibility to contact the instructor regarding missed assignments and/or activities and to be prepared for the next class assignment.
- Students enrolled in web courses must follow the course attendance policy defined for online attendance during the first week of class and throughout the term. Failure to do this may result in being dropped from the class during week one OR may result in the accrual of absences which may negatively impact the student's grade in the course.
- Students who have not paid fees on time and/or are not correctly registered for this class and whose names do not appear on official class rolls generated by the Walters State student

information system (MyWS) will not be allowed to remain in class or receive credit for this course.

Use of electronic devices is prohibited unless use of the device is relevant to the activity and use is sanctioned by the faculty member in charge. Electronic devices that are not relevant to the activity or sanctioned by the faculty member in charge should be set so that they will not produce an audible sound during classroom instruction or other college-sponsored academic activity.

## **FINANCIAL AID**

Students receiving any type of financial aid or scholarship should contact the Financial Aid Office before making any changes to their schedule. Schedule changes without prior approval may result in loss of award for the current term and future terms.

All forms of student Financial Aid may be jeopardized or lost due to the lack of Satisfactory Academic Progress in one or multiple courses. Lack of Satisfactory Academic Progress may negatively impact a student's degree/certificate completion pace and further jeopardize Financial Aid eligibility.
