## Student Learning Outcomes/Objectives

- Demonstrate an ability to create two-dimensional sketches used to form the foundation for 3D model creation.
- Demonstrate an ability to create models using the extrude, revolve and loft commands.
- Demonstrate the ability to create assembly models using modeled parts.
- Demonstrate the ability to create assembly drawings using modeled parts and assemblies.
- Demonstrate the ability to use Smart Fasteners in assembly models.
- Demonstrate the ability to modify part and assembly models by altering parameters.
- Demonstrate the ability to fully define sketches, part, and models using dimensions and geometric relationships.

## Instructional Approach and Methods

This being a traditional course, the student is to attend all classes in person, during which they will participate in lectures and work through all assigned models and submitting them into the appropriate

dropboxes.

## Assessment, Evaluation and Testing Procedures

The student's grade will be the result of multiple assessments. the student's final course grade will be determined based on the following assessment weights:

Attendance: 10%

Assigned drawings and models: 40%

Exams: 50%

## Grading Scale

|   |          |
|---|----------|
| A | 90-100   |
| B | 80-89    |
| C | 70-79    |
| D | 60-69    |
| F | Below 60 |

## Assignments

During this semester, students will be assigned a minimum of 39 drawing and modeling assignments, a midterm exam, and a final exam.

## Class Participation

### Class Participation:

Attendance is mandatory, and roll will be taken before the class begins. Attendance will make up 10% of the student's final grade, and that grade will be an average of the daily attendance grade. Every class meeting, an attendance grade will be assigned to each student as follows:

|                     |     |
|---------------------|-----|
| Present and on time | 100 |
| Tardy (<10 minutes) | 50  |
| Absent              | 0   |

This being a web section, attendance will be graded by the timely and complete upload of all assigned drawings and models into their respective dropboxes.

Students with excused absences must complete all make-up work within (7) days. Exceptions to this rule must be discussed with and cleared by the instructor BEFORE the deadline. Examples of excused absences include, but are not limited to, personal illness, illness of a spouse, child, or close family member, bereavement, and pre-approved school functions. ## **COURSE GROUND RULES**

- Students must attend the first day of on-ground class or contact the instructor prior to the first class. Failure to do this may result in being dropped from the class. Excessive absences may substantially lower the course grade.
- Regular class attendance is a student's obligation for any course regardless of format. (See the Walters State Catalog/Student Handbook). If a student misses class, it is his or her responsibility to contact the instructor regarding missed assignments and/or activities and to be prepared for the next class assignment.
- Students enrolled in web courses must follow the course attendance policy defined for online attendance during the first week of class and throughout the term. Failure to do this may result in being dropped from the class during week one OR may result in the accrual of absences which may negatively impact the student's grade in the course.
- Students who have not paid fees on time and/or are not correctly registered for this class and whose names do not appear on official class rolls generated by the Walters State student information system (MyWS) will not be allowed to remain in class or receive credit for this course.

Use of electronic devices is prohibited unless use of the device is relevant to the activity and use is sanctioned by the faculty member in charge. Electronic devices that are not relevant to the activity or sanctioned by the faculty member in charge should be set so that they will not produce an audible sound during classroom instruction or other college-sponsored academic activity.

## **FINANCIAL AID**

Students receiving any type of financial aid or scholarship should contact the Financial Aid Office before making any changes to their schedule. Schedule changes without prior approval may result in loss of award for the current term and future terms.

All forms of student Financial Aid may be jeopardized or lost due to the lack of Satisfactory Academic Progress in one or multiple courses. Lack of Satisfactory Academic Progress may negatively impact a student's degree/certificate completion pace and further jeopardize Financial Aid eligibility.
